

CLEAR VISION

OPERATING ROOM

Intended Use

Healthcare professionals are at cross contamination risk (blood, body fluids, tissues etc) that will arise during surgical interventions.

Clear Vision System is designed to protect the eye and its surroundings, the most vulnerable area against cross contamination.

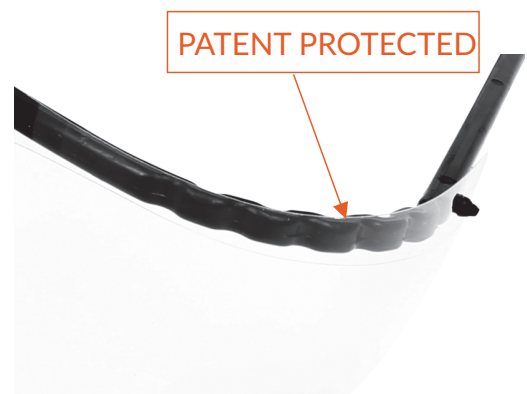

Key Features

- Light.
- Ergonomic.
- Antibacterial, reusable frame with different colours.
- Easily assembled, clear, anti-fog and minimum reflection lens.
- Can be fixed on prescription eyewear and surgical masks.
- Large lens covers full protection for the eye and its surroundings.
- Latex free.
- Patent protected frames and patent protected easy peel lens designs.
